

**Amendments to the Specification:**

Please replace the paragraph beginning at page 24, line 13 (paragraph 0080 of the published application) with the following amended paragraph:

In the embodiment of FIGS. 20-24, the wedge is shaped so that the distal ends of the discrete tubes 154, 156 curve outwardly. In the illustrated embodiment, the distal ends of the discrete tubes 154, 156 are each curved outwardly at a radius of curvature of about 15 cm. (5.9 inches), shown at "r" in FIG. 22. It should be understood that this radius is provided by way of example only, and the present invention is not limited to use of curved tubes or to use of tubes curved at this radius unless expressly called for in the claims.
